# MISSION STATEMENT

Drawing inspiration from the harmony of nature, the pulse of society, and the pursuit of wellbeing, we are committed to creating inclusive and thoughtful pieces that elevate your space and enhance your everyday experiences.

## OUR DESIGN ETHOS

With our extensive design expertise, we place equal importance on premium quality materials, craftsmanship, functionality and aesthetics.

Our creations are meticulously crafted to stand the test of time.

Our overarching objective is to produce universally appealing pieces to be usable by all people to the greatest extent possible without the need for adaptation or specialised design.

## OUR BRAND PARTNERS

 **GEDY** Based in the capital of design, Milan Italy, Gedy is renowned for both its fashionable style and work with international product designers.

 **sonia** Spanish studio, Sonia produces high-end contemporary bathroom accessories that encapsulate luxe-living, delivering looks, functionality and longevity.

# CELEBRATING 30 YEARS

When we founded Origins Living in 1995, we believed mirrors and accessories should be as stylish as they are functional - breaking free from the clinical confines of conventional bathroom design. Thirty years on, that belief remains at the heart of everything we do, as we continue creating inspired pieces that enrich lives.

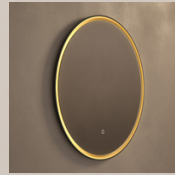

## WELLBEING & THE HOME

In an area where growing evidence emphasises the profound impact our environment has on our wellbeing, the importance of having thoughtfully designed personal spaces within our homes has never been greater.

## BATHROOM ZONES

Luminaires chosen for use in bathrooms are subject to certain wiring regulations and must be selected and erected, so as to be suitable for the external influences likely to occur at the particular point of installation. Such influences are likely to include steam (leading to condensation), falling drops of water and sprays and/or jets from shower heads.

All luminaires can be assigned an IP (Ingress Protection) rating. This relates to the protection afforded by the light fitting against penetration by solid particles or moisture. The IP rating consists of two numbers. The first number relates to the degree of protection against solid particles, the second to the degree of protection against moisture.

For bathroom use, the second number is the most significant. The required IP rating for light fittings in bathrooms depends on their actual location in the bathroom. The regulations divide the bathroom into zones (see illustration) which determine the IP rating. All luminaires used in a bathroom must be protected with a 30mA RCD, in accordance with IEE regulations.

**Zone 0** Interior of bathtub or shower tray - IP68 and low voltage supply (max 12v).

**Zone 1** Perimeter of bathtub or shower tray up to a height of 2.25m above the floor - IP44.

Use IP65 where water jets are used for cleaning purposes.

**Zone 2** Perimeter 0.6m wide around Zone 1 and a 60cm radius above washstands- IP44.

Use IP65 where water jets are used for cleaning purposes.

**Outside of Zones** There are no stated requirements for IP. Luminaires should be suitable for their location and provide adequate protection against electric shock.

# CORPORATE SOCIAL RESPONSIBILITY

---

At Origins Living we strive to take all reasonable steps to trade ethically and sustainably. As a family business, we genuinely care and this has been at our core since the inception of the company in 1995.

We understand that every action we take has an impact on people and the planet and we remain committed to continual improvement in all aspects of our business.

We consider our role within corporate social responsibility to fall within two classifications; compliance and proactive. Compliance refers to our commitment to adhere to the legalities and commitment to upholding social & ethical values. Proactive relates to our own initiatives to help our communities and protect our natural environment.
